USB 2.0 Video Grabber Nano

Description

The Delock Video Grabber Nano enables you to save your movies from the video recorder, camcorder etc. via USB to your PC, so that you can edit and burn your movies on DVD. Thus you convert the analogue Video signal into a digital data format and receive a high quality MPEG format (4/2/1). Furthermore your Audio signal will be digitized. The included software provides by request a YouTube™ compatible file.
